BY AMERICAN STANDARD HEATING & AIR

Ameristar® by American Standard® Heating & Air Conditioning: Affordable year-round indoor comfort

American Standard has been making homes comfortable for more than a century—and our Ameristar brand brings that same commitment to dependability and durability to value-conscious customers.

Ameristar stays true to the reputation of the American Standard® brand, which has earned the trust of professional contractors over the course of decades.

In addition to high-quality HVAC systems, our support includes information and

education about parts and equipment, warranties, and technical information.

Ameristar systems are built to provide quiet, efficient comfort in every season, year after year—at a price that fits any budget.

With Ameristar heating and cooling systems, quality equipment, home comfort, and affordability are all part of the package.

AMERISTAR®

AMERISTAR[®]

BY AMERICAN STANDARD HEATING & AIR

Tested to Perform

To ensure that long-term performance, Ameristar takes a meticulous approach to designing, engineering, and manufacturing its budget-friendly line of equipment. Before it leaves the factory, every Ameristar cooling and heating product is subjected to the industry's most rigorous testing—so you can be confident that when it's installed at your home, it will deliver indoor comfort for years to come.

Comprehensive warranty coverage gives you peace of mind

Ameristar products are engineered and built to provide long-term home comfort—and our comprehensive warranty gives you the confidence that we stand behind our brand and the durability of your system's components.

The smart, affordable solution to comfort

Keeping your home comfortable is a year-round task for your heating and cooling systems—but it shouldn't break your budget. Ameristar offers numerous affordable options, whether you're installing a system in a new house, upgrading to a new system in an older house, or replacing a broken unit. No matter which you choose, you'll not only enjoy a competitive price on the purchase, our high-efficiency systems keep you comfortable while helping you manage your energy bills.

- > Backed by the legendary American Standard brand, Ameristar[®] is designed and manufactured with a focus on quality and long-term performance in every product:
- > Full range of options includes air conditioners, heat pumps, furnaces, ductless systems, packaged units, and indoor coils.
- > Systems are designed to minimize noise levels—helping maintain your home's quiet environment.
- > For durability in all weather conditions, as well as safety, Ameristar tests every product to ensure performance over the long haul.
- > Warranty protects your heating or cooling investment for years to come.

AMERISTAR[®]

BY AMERICAN STANDARD HEATING & AIR

An Ameristar ENERGY STAR[®] Furnace saves you money!

An Ameristar ENERGY STAR certified forced-air furnace, **fueled by gas uses 6% less energy, fueled by oil uses 9% less energy**, on average, than a standard model. Space heating represents 63% of your home energy use and offers the most potential for cutting your energy bill. Residential furnaces that have earned the [ENERGY STAR Most](#)

[Efficient](#) designation are the best of the best – they'll save you even more energy. Saving energy saves money and reduces your carbon footprint.

Buy An Ameristar ENERGY STAR[®] Air Conditioner to save you money!

An Ameristar ENERGY STAR certified central air conditioner (A/C or "central air") **uses 8% less energy**, on average, than a standard model. Central air conditioners that have earned the [ENERGY STAR Most Efficient](#) designation are the best of the best – they'll save you even more energy.

It is important to remember, though, that replacing an air conditioner that is over 10 years old can easily save you upwards of 20%. Saving energy saves money and reduces your carbon footprint.

Furnaces

Multiple options that offer the single best way to keep living spaces warm

Whether fueled with natural gas or propane, Ameristar furnaces are designed to provide comfortable, quiet, and consistent heating without temperature swings. They're also built to last, with high-quality components that offer long-lasting performance and reliability.

Air Conditioners

Quiet, cool, and efficient air conditioning at an affordable price

Ameristar air conditioning units provide quiet, effective cooling through the height of summer—while staying within your budget. Our air conditioning units are equipped with essential features, such as scroll compressors and durable cabinets, to maintain maximum cooling performance over the long haul.

AMERISTAR[®]

BY AMERICAN STANDARD HEATING & AIR

FURNACES

DEPENDABLE WARMTH AND EFFICIENCY

When temperatures drop, Ameristar gas furnaces will help keep your home toasty. In addition to providing consistent, quiet comfort, these units are designed and manufactured for efficiency and long-term dependability that outclasses any other furnace you'll find in a similar price range
